Innovative, versatile cable duct solutions
TAL Plus
Universal Skirting Duct

Versatile ducting for all commercial cabling

Universal ducting solution

Today’s office spaces are designed to create an efficient and innovative environment, incorporating user-friendly and contemporary interiors. TAL Plus skirting duct complements these modern commercial environments, offering an innovative cable management solution. It represents the latest design evolution and development in the Clipsal Cable Management Solutions range.

Replacing the HM, T and TAL range, it is the first universal skirting duct available with unique design features, such as a two division skirting duct, with separate compartments for power and voice/data cables; an optional drop-in barrier to create a three division skirting duct.

Features and benefits:
- Innovative new design
- Removable barrier - two or three division
- Extruded aluminium clip-on lid
- High quality steel drop-in lid
- Extruded aluminium body
- Four colour options
- All outlets in line
- Centre mounting suits power packs
- Suitable for categories 5a, 6 and 6a cabling
- Ease of installation

Innovative and flexible for all your cabling requirements

Joining kits to ensure alignment and Earth continuity of duct bodies.
Power shrouds provide segregation and secure mounting of accessories.
Universal power and voice/data front cover accessory plates.
Voice/data shrouds for secure mounting of accessories.

**Evolutionary universal** skirting duct design

Add an extra barrier
In its basic form, TAL Plus offers you a two division skirting duct. With the addition of a separate barrier section, it can quickly and easily be converted to three divisions. An extra barrier provides the additional segregation that some installations require. In many cases, the barrier can be secured during the fixing process of the duct body.

Available colours
- Black
- Natural Anodised
- Opal Grey
- White

Choice of lids
**Drop-in lids**
- Unique design allows quick and easy access to the cabling when required.
- Manufactured from high quality steel, finished with thermally bonded vinyl veneer or colour powder-coat.

**Clip-on lids**
- Securely clips in place.
- Secure fitting lid that will not fall out.
- Requires a special tool for removal - prevents tampering with cabling.
- Flush finish with the face of the duct body, provides an aesthetically pleasing appearance.
- Manufactured from extruded aluminium and finished in a colour powder-coat.

Note: All clip-on natural anodised lids are manufactured from extruded aluminium to provide colour consistency.

Easy peel protective film prevents damage to the quality powder-coat or anodised finishes.

TAL Plus
Universal Skirting Duct

Industry leading cabling solutions

Installation is part of our service
For added convenience and time saving, Clipsal by Schneider Electric can provide expert installers to fit TAL Plus skirting duct. They can install TAL Plus with a professional fit on joins and mitre cuts, to deliver a high quality finish. For more information, contact your local Clipsal Representative.

Australia's No.1 Electrical Brand
Established in 1920, Clipsal by Schneider Electric is Australia’s number one brand of electrical products, accessories and solutions. Throughout our history, Clipsal has evolved and grown with great success by supporting our local economy, and providing products manufactured at multiple sites across Australia. In our role as an industry leader, Clipsal is dedicated to supplying you with the most innovative and sustainable electrical solutions available. As part of Schneider Electric, the global specialists in energy management, Clipsal provides a total electrical solution for any project or application.

Everything we do is focused towards producing and supplying the most innovative and cost effective cable management solutions for the present market, and the future.
Along with the innovative TAL Plus universal skirting duct, Clipsal’s extensive Moduline product range includes service columns, pedestal poles, floor boxes and SOHO pop-up power outlets. TAL Plus universal duct provides reliable access to power, telephone and data in commercial buildings. Its universal design allows for easy selection and installation of both wiring devices and feeder duct.

If you require superior quality structured cabling solutions look no further than Clipsal.
