A MULTI-ROOM ENTERTAINMENT SYSTEM
OFFERING SUPERB HIGH FIDELITY PERFORMANCE...
The least intrusive entertainment system ever devised.

This is the way home entertainment should be, listening to your favourite music or enjoying a movie in any room you choose.

The great thing is, all of this is achieved in a very discreet and space efficient way – no need for big unsightly black boxes, LexCom Home™ Audio is a built-in solution. It couldn’t be easier. Just plug-in your hi-fi or home theatre system and go! It’s as simple as that.

Best of all, LexCom Home™ Audio delivers all of this in unparalleled high fidelity sound thanks to its unique purpose-designed, amplified in-ceiling loudspeakers.

Using LexCom Home™ Audio is so simple, just press a button on the wall keypad or remote control... and enjoy!
What is Multi-Room Entertainment?

Multi-Room Entertainment represents a built-in system within the home which allows the whole family the freedom to enjoy home entertainment independently in any number of chosen rooms.

Why choose LexCom Home™ Audio?

LexCom Home™ Audio uses reliable proven technology from Europe’s leading manufacturer – with over 20 years’ experience and 1000’s of systems fitted in discerning homes across Europe. Relax, you’re in good company.

LexCom Home™ Audio offers true high fidelity performance, with a power efficient design. A typical 6 room system with all rooms playing uses less power than a 100 watt light bulb!

Modular by nature, LexCom Home™ Audio can be exactly tailored to your home, lifestyle and budget. There are single-source or multi-source audio & video systems, that can play music and movies in up to eight rooms. Options include discreet mono, stereo or even 5.1 cinema surround sound configurations.

With our easy to use remote controls and keypads, at last there is a system that can be enjoyed by all the family. There are stylishly simple remotes or sophisticated learning remote controls that can replace remotes for up to six other devices... you choose.

... Just plug your hi-fi, MP3 player, TV, home theatre system or even your PC into the wall sockets and listen to high quality sound – in any room of your home.

Unique in-ceiling amplified speakers deliver outstanding high fidelity sound, without intruding into your living space.

The system is wired back to a compact hub which is installed in a hidden enclosure alongside other home services.

As simple as one touch of the discreet keypad or use the elegant and straightforward handset.
Single-Source Music

Listen to and control the same music source (a hi-fi system) around your home. You can connect additional sources (MP3, CD or PC) in individual rooms and listen to them in glorious hi-fi stereo through the Modular speakers.

Multi-Source Music

Listen to and control up to six different music sources around your home, for example: radio in the kitchen and CD in the bedroom etc. You can also connect additional sources (MP3, CD or PC) in individual rooms and listen to them in glorious hi-fi stereo through the Modular speakers.

Multi-Source Music and Video

Listen, watch and control up to six different music or video sources (i.e. CD, Radio, TV, DVD, Video and PAY TV) around your home. You can also connect additional sources (MP3, CD or PC) in individual rooms and listen to them in glorious hi-fi stereo through the Modular speakers.
5.1 Cinema Surround Sound

Imagine the full-on surround experience without the clutter of lots of black boxes and wires. Any room can be configured to deliver 5.1 surround sound from a suitable source.

*Requires DVD player or other source with 5.1 pre-outs.

*Schematic for illustration purposes only.
A STRUCTURED NETWORK FOR THE HOME
that keeps pace with your family’s needs

The PDL LexCom Home™ Network is a unique smart wiring solution that simply manages all of your home entertainment and communications needs. Not only will you enjoy all the benefits of having today’s most advanced home wiring and networking technology, but your home will be ready for tomorrow’s technology advances without the need for rewiring.

Whether you need additional phone lines for your home office, a local area network, high-speed Internet access, or the convenience of watching your favourite DVD or pay TV show in any room of your home, LexCom Home™ Network offers a reliable, easy-to-use, and affordable solution.

Multi-Room Entertainment
Watch your favourite TV shows and movies in every room of your home. You can even watch the movie playing on your DVD player in one room, on a TV in any other room. Similarly, video signals from other sources such as security cameras, personal video recorders, digital and pay TV set top boxes, can be viewed simultaneously on televisions throughout your home.

High-speed internet access
Connect an ADSL modem for broadband internet and you get simultaneous high speed web surfing and downloading, from all the computers in your home. Network all your computers; listen to mp3 music or view downloaded movies; watch a slide show of your latest family photos; or send documents to your printer; from any room in your home.

Multiple phone lines
With your PDL LexCom Home™ Network, you can manage the various phone lines needed in your home. You could have dedicated lines for your home office phone and fax, or even a separate personal line for a teenager.
The PDL LexCom Home™ Control system is a home lighting solution that can be installed in any home new or existing, at any time without the need to run special cables, or rewire existing electrical circuits.

Simply replace your existing light switches with LexCom Home™ Control dimmers to create one-touch lighting control for your entire home.

**Welcome Home**

Coming home to a dark house will become a thing of the past with the LexCom Home™ Control lighting system. Whilst in the comfort of your car, you can turn on groups of exterior and interior lights with a remote control, safely lighting a path into and through your home, viewed simultaneously on televisions throughout your home.

**Good Night**

Forget about going around your house to turn off all the lights left on by the kids. Just press the “All Off” scene button next to your bed and all the lights will fade off.

**Home Theatre**

Control groups of lights in a home theatre room with the press of a single button. Not only does our home theatre lighting solution give you ultimate control of your home theatre room lighting, it may be extended to include curtain and screen controls.
